Experience

Full Stack Web Developer (Jan 2024 - Present)

Web Solutions LTD, Catania, Italy

Responsibilities:

- Develop and maintain robust betting ecosystems using PHP, jQuery, and AJAX
- Implement dynamic user interfaces with HTML, JavaScript, and occasional CSS
- Collaborate with cross-functional teams to design, develop, and deploy new features
- Work with MySQL and SQL databases to retrieve, pass and insert data
- Utilise AWS S3 for scalable storage solutions
- Optimise application performance and ensure high-quality user experiences
- Troubleshoot and resolve technical issues promptly to maintain system reliability

iOS Developer (Dec 2022 - Dec 2023)

Self-funded

After 5 months of learning, I’ve decided to write a complete project to solidify my knowledge and gain new skills in a practical environment

Result:

Intermittent Fasting App, available on the AppStore
Detailed information on this and other projects of mine you can find in my portfolio using the link above

Marketing Generalist (Mar 2022 - Aug 2022)

Gold’s Yacht Company, Dubai, UAE

Besides core Marketing responsibilities on this job, an important point to mention is:

- **Outsource teams management** - management of 3 teams, processes optimization, creation and control of goals and KPIs for each team

As a **major result**, I consider establishing analytics and report systems with outsource teams as well as 15% average growth on marketing channels
