Education

- iOS Developer
- Psychology in Business

iOS Developer

Summary

Hello! I'm a junior iOS Developer with a strong Psychological and EQ background, and a passion to solve problems and achieve results and goals. Nothing motivates me more than complicated tasks with an observable result upon completion. I believe that my values and previous experience can help both growing and stable companies in their journey further

Most learned skills :

- Swift, Xcode, UIKit
- Storyboards, Auto Layout
- UserDefaults
- CoreML, CreateML

Mid-learned skills :

- Networking (JSON), API Integration
- Alamofire
- Core Data, Realm
- Cocoa Touch
- Source Control

Less (but still) learned skills :

- Firebase
- ARKit
- CoreLocation

Projects

- Intermittent Fasting App - available on the AppStore
- Stocks Prediction App with Twitter API
- Weather App with CoreLocation
- ToDo App with Realm
- Bill + Tip split App

Detailed portfolio available on GitHub:

Experience

iOS Developer (Dec 2022 - Feb 2023)
Self-funded

After 5 months of learning, I've decided to write a complete project to solidify my knowledge and gain new skills in a practical environment

Result:
Intermittent Fasting App, available on the AppStore
Detailed information on this and other projects of mine you can find in my portfolio using the link above

Marketing Generalist (Mar 2022 - Aug 2022)
Gold's Yacht Company, Dubai, UAE

Besides core Marketing responsibilities on this job, an important point to mention is:

- **Outsource teams management** - management of 3 teams, processes optimization, creation and control of goals and KPIs for each team

As a **major result**, I consider establishing analytics and report systems with outsource teams as well as 15% average growth on marketing channels

Education

iOS Developer (Aug 2022 - Dec 2022)
Self-taught with courses, professional literature, and documentation

Master of Psychology, Psychology in Business (Sep 2019 - Jun 2021)
National Research University «Higher School of Economics», Moscow
